

Preparing Your Legacy: Passing the Torch

Creating a meaningful legacy is about more than leaving behind wealth or accomplishments—it's about passing on values, wisdom, and a vision that inspires future generations. By intentionally preparing your legacy, you equip those who follow to build upon your foundation and continue the work you've started. Passing the torch ensures that your impact not only endures but grows, empowering others to carry forward the mission with purpose and strength. Legacy is not just what we leave behind—it's what we ignite in others to keep the flame burning for generations to come
